## Instructions:

The build is pretty straightforward: follow the numbers and you won't have any problem. Though I numbered them, you can add the teeth whenever you want after having assembled pieces 1-4.

A tip for the hind legs: if you don't have tweezers, gluing the legs to piece n.14 could be tricky. To avoid this, first assemble part 15, glue it to part 14, then glue part 16. Do the same thing with parts 17 and 18. And, have fun building! :D
